

**Delivering fully accredited courses on site  
and at our UK training centres**

## Who are Mentor?

Mentor are the UK's leading provider of nationwide forklift truck, crane, access equipment and safety management training.

We have 160 training professionals and a team of experienced support staff who provide 24/7 UK availability, 365 days a year.

Established in 1988, Mentor have trained over 700,000 operators, providing high quality and competitively priced training to companies across a wide range of industry types.

## What makes us different?

### Quality

Experienced and qualified instructors deliver courses in line with the latest HSE and best practice guidance, and we work with leading associations and accrediting bodies to ensure the highest standards.

### Service

We offer a wide range of courses via one point of contact, making booking simple and convenient, alongside delegate management, record keeping and reporting from our dedicated support teams.

### Value

Our all-inclusive fixed cost model allows us to offer a market leading service at an extremely competitive price. Local instructors train on site for maximum convenience, relevance and to minimise costs.

For further information on any of our courses or to discuss your specific training requirements, **contact us today.**

## Access Equipment

Mentor offer the full range of nationally recognised and approved Access Platform and Mobile Scaffolding Tower training courses.

Operator training for all experience levels, covering the safe and effective use of all types and sizes of MEWPs and towers. Specific courses are also available for managers who oversee their use.

Courses can be delivered at any suitable customer location or at one of our training centres via our regular **open courses**.

## Safety Management

Specialising in Workplace Transport, our Safety Management courses focus on ensuring legal compliance and reducing the risk (and expense) of accidents, injuries and damage. Our suite of courses includes:

- Managing Forklift Operations
- Safely Working with Lift Trucks
- IOSH Managing Safely & Refresher
- IOSH Working Safely

We also provide a full range of advisory services, including bespoke training packages, site audit and risk analysis and reporting.

## Specialist Training

We deliver a number of courses for those using specialist equipment/vehicle types or carrying out high-risk tasks:

- Manual Handling
- Vehicle Banksman & Public Highway Banksman
- LGV Shunter
- Tow Tug
- Abrasive Wheels
