Electric counter-balance fork-lift trucks

The MX series counterbalance trucks are rugged and extremely durable machines, perfect for heavy lifting. Powerful and efficient, UniCarriers electric counterbalance range can be fully equipped to work in mixed applications (indoors and outdoors). Comfortable and driver-orientated, they have top-class ergonomics with a fully adjustable driver compartment. The agile and manoeuvrable counterbalance truck range comes with a full range of mast systems, specifications, and battery options.

UNICARRIERS 360°

It's all about
the price.
**But what
price?**

Reduce your Total Cost of Operation with UniCarriers

We agree. Price is everything. Or to be more specific: your Total Cost of Operation (TCO). That's why we're so focused on cutting costs and improving your material handling. The truck and its performance play an important role, but this is even more about how we can support you in optimising your warehouse operations to give you the best value for your money. Which – in the long run – is what creates a winner.
